Ontology Commons addressing challenges of the Industry 5.0 transition

Standardised data documentation and data sharing valorisation to foster data-driven innovation

Follow us on:

Agenda

2 November 2021

Time	Sessions	
Plenary		
10:00 - 10:15	Welcome	Nadja Adamovic, TU-WIEN, Project Coordinator
10:15 - 10:50	International initiatives on Applied Ontologies	
10:50 - 11:25		
11:25 - 11:30		
11:30 - 11:45	Break 1	

	Room 1		Room 2	
1st break out	**Industry common translator**	Chair: Gerhard Goldbeck (GCL), Rapporteur: Alexandra Simperler (GCL)	**Ontology Interoperability**	Chair: Nicola Guarino (Laboratory for Applied Ontology ISTC-CNR) Rapporteur: Chiara Comparino (CNR)
11:45 - 11:55	Advancing Translation in Materials Modelling	Peter Klein (Fraunhofer ITWM)	Introduction to ontology matching and alignment	Jérôme Euzenat (INRIA and Université Grenoble Alpes)
11:55 - 12:00	Q&A		Q&A	
12:00 - 12:10	Translation of Innovation challenges	Michael Noeske (Fraunhofer IFAM)	Ontology alignments: semantics, ontology integration, multiple logics	Till Mossakowski (Otto-von-Guericke University of Magdeburg)
12:10 - 12:15	Q&A		Q&A	
12:15 - 12:25	Semantic engineering skills for everyone: continuous professional development in the OBO community	Nicolas Matentzoglu (Independent Contractor)	Conceptual heterogeneity: the case of time	Claudio Masolo (Laboratory for Applied Ontology ISTC-CNR)
12:25 - 12:30	Q&A		Q&A	
12:30 - 13:15	Discussions	Chair: Gerhard Goldbeck (GCL)	Discussions	Chair: Nicola Guarino (Laboratory for Applied Ontology ISTC-CNR)
13:15 - 14:15	Lunch Break			
2nd break out	**Enabling intra-ontology interoperability through shared terminology**		**Ontologies Stratification**	Chair: Hedi Karray (ENIT)
14:15 - 14:25	Ontology Standards in ISO	Barry Smith (Director, National Center for Ontological Research)	Experience of ontology stratification strategy and issues with TLO alignment in IOF	
14:25 - 14:30	Q&A		Q&A	
14:30 - 14:40	Improving the efficiency and effectiveness of systems integration and interoperability		The EMMO Structure and Perspectives	Emanuele Ghedini (EMMO)
14:40 - 14:45	Q&A		Q&A	
14:45 - 14:55	Standardisation in the IoT domain	Ulrike Parson (Parson Europe – IRDS)	Layered patterns in design workflows	Aldo Gangemi (MAC)
14:55 - 15:00	Q&A		Q&A	
15:00 - 15:10	Ontology Standards in Industry 5.0		Discussions	Chair: Hedi Karray (ENIT)
15:10 - 15:15	Q&A			
15:15 - 15:45	Discussions	Chair: Silvana Muscella (Trust-IT Services)		
15:45 - 16:00	Break 2			

Time	Sessions	
16:00 - 16:25	Sessions summary	Nadja Adamovic, TU-WIEN, Project Coordinator
16:25 - 16:30		
Plenary		

Ontology Commons addressing challenges of the Industry 5.0 transition

Standardised data documentation and data sharing valorisation to foster data-driven innovation

Agenda

3 November 2021

Time	Sessions	
Plenary		
10:00 - 10:05	Welcome	Nadja Adamovic, TU-WIEN, Project Coordinator
10:05 - 10:50		Javier Sanfelix, EC
10:50 - 11:25	Ontology Ecosystem Toolkit	Valentina Presutti (University of Bologna, Italy)
11:25 - 11:30		
11:30 - 11:45	Break 1	

	Room 1		Room 2	
1st break out	**Establishing a Knowledge Exchange Space**	Chair: Yann Le Franc Rapporteur:	**User Experience on Ontology Engineering Tools**	Chair: Maria Poveda (UPM) Rapporteur:
11:45 - 11:55	Presentation of KeXs	Yann Le Franc	HCI for ontologies	Enrico Motta
11:55 - 12:00	Q&A		Q&A	
12:00 - 12:10	FAIR Principles: An introduction	Barend Mons (GOFair)		Soren Auer
12:10 - 12:15	Q&A		Q&A	
12:15 - 12:25	Overview of EOSC	Karel Luyben (EOSC Association)	UX aspects of Protégé	Matthiew Horridge
12:25 - 12:30	Q&A		Q&A	
12:30 - 12:40	Overview of RDA	Hilary Hanahoe (RDA)	Information Modelling Framework	Arild Waaler
12:40 - 12:45	Q&A			
12:45 - 13:15	Discussions	Chair: Gerhard Goldbeck (GCL)	Discussions	Chair: Maria Poveda (UPM)
13:15 - 14:15	Lunch break			
2nd break out	**Ontology-based digital marketplaces for Industry Commons**	Chair: Ebrahim Norouzi (Fraunhofer) Rapporteur: Ebrahim Norouzi (Fraunhofer)	**Ontology adoption**	Chair: John Breslin (NUI Galway) Rapporteur:
14:15 - 14:25	EC vision and recommendations	Laszlo Hetey (HaDEA)	Ontology adoption in the aircraft industry	Gianmaria Bullegas (Perpetual labs)
14:25 - 14:30	Q&A		Q&A	
14:30 - 14:50	Experiences of marketplace projects	Marketplace, VMMR1 Market 4.0, Wellgalaxy speakers (5 minutes each)	Adoption of GoodRelations	Martin Hepp (Universität der Bundeswehr Munich)
14:50 - 14:55	Q&A		Q&A	
14:55 - 15:05	DOME 4.0 requirements	Amit Bhave (CMCL, UK)	OntoPortal for adoption	Clement Jonquet (LIRMM)
15:05 - 15:10	Q&A		Q&A	
15:10 - 15:20	Marketplaces interoperability demonstrator	Silvia Chiacchiera (UKRI)	Discussions	Chair: John Breslin (NUI Galway)
15:20 - 15:25	Q&A			
15:25 - 15:45	Discussions	Chair: Ebrahim Norouzi (Fraunhofer)		
15:45 - 16:00	Break 2			

Time	Sessions	
16:00 - 16:25	Session Summary	Hedi Karray, ENIT
16:25 - 16:30		
Plenary		

Ontology Commons addressing challenges of the Industry 5.0 transition

Standardised data documentation and data sharing valorisation to foster data-driven innovation

Agenda

4 November 2021

Time	Sessions	
Plenary		
10:00 - 10:05	Welcome	Nadja Adamovic, TU-WIEN, Project Coordinator
10:05 - 10:40	Thematic Partner	Elisa F. Kendall (Thematic Partner, LLC)
10:40 - 11:15	Setting Expectations and Measuring Impact	
11:15 - 11:20		
11:20 - 11:25		
11:25 - 11:45	Break 1	

	Room 1		Room 2	
1st break out	**Session on FAIR Technology Adotion in Demonstrators**	Chair: Umutcan Simsek (University of Innsbruck)	**Ontology Engineering in Material Science**	Chair: Martin Horsch Rapporteur: Gerhard Goldbeck (GCL)
11:45 - 11:55	Q&A	Eric Schultes (GOFAIR Foundation)	FAIRness in Material Ontology	Alexandru Todor (Fraunhofer)
11:55 - 12:00			Q&A	Soren Auer
12:00 - 12:10	Showcasing good FAIR adoption in a demonstrator		Requirements and development of an interoperable (domain) ontologies: example of batteries	Simon Clark (SINTEF)
12:10 - 12:15	Q&A		Q&A	
12:15 - 12:25	Showcasing best practices from other projects			Norbert Kockmann (TU Dortmund)
12:25 - 12:30	Q&A		Q&A	
12:30 - 13:15	Discussions	Chair: Umutcan Simsek (University of Innsbruck)	Discussions	Chair: Martin Horsch
13:15 - 14:15	Lunch break			
2nd break out	**OntoCommons Demonstrators**	Chair: Rapporteur:	**Industrial Engineering**	Chair: Stefano Borgo (STC-CNR Laboratory for Applied Ontology) Rapporteur: Emilio M. Sanfilippo and Arkopaul Sarkar
14:15 - 14:25	Measuring the impact of industrial ontology application	Evgeny Kharlamov (BOSCH)	How to use competency questions in ontology requirement analysis?	Michael Grüninger (University of Toronto)
14:25 - 14:30	Q&A		Q&A	
14:30 - 14:40	How do we benefit from OntoCommons?	Sebastian Scholze (AT8)	Ontologies for manufacturing	Walter Terkaj (STIIMA-CNR)
14:40 - 14:45	Q&A		Q&A	
14:45 - 14:55	Joining the OntoCommons Project - setting expectations	Amit Bhave (CMCL, UK)	Experience with SAREF for Industry	Mauro Dragoni (FBK)
14:55 - 15:00	Q&A		Q&A	
15:00 - 15:45	Discussions		Discussions	Chair: Stefano Borgo (STC-CNR Laboratory for Applied Ontology)
15:45 - 16:00	Break 2			

Time	Sessions	
16:00 - 16:25	Session Summary	Hedi Karray, ENIT
16:25 - 16:30		
Plenary		

Ontology Commons addressing challenges of the Industry 5.0 transition

Standardised data documentation and data sharing valorisation to foster data-driven innovation

Agenda

5 November 2021

Time	Sessions	
Plenary		
10:00 - 10:05	Welcome	Nadja Adamovic, TU-WIEN, Project Coordinator
10:05 - 10:50	Innovation and Sustainability	Katarina Nyberg Karl
10:50 - 11:05	Break 1	

	Room 1		Room 2	
1st break out	**Innovative Use Cases for Innovative Ontology Applications**	Chair: Michela Magas (ICF, OntoCommons) Rapporteur: Silvana Muscella (Trust-IT Services)	**Domain Ontology for manufacturing and supply chain**	Chair: Dimitris Kiritsis (EPFL) Rapporteur: Arkopaul Sarkar and Emilio M. Sanfilippo
11:05 - 11:15	Moderated discussion	Michela Magas (ICF, OntoCommons)	Ontology engineering for Industrial Maintenance	Melinda Hodkiewicz (University of Western Australia)
11:15 - 11:20	Volvo electric cars	Fredrik Folkestad (Folkestad Sino-Skandinavien)	Q&A	
11:20 - 11:30	Closed loop retail management	Celine Xu (Data Science Comperience Lead at H&M)	Systems Engineering as the foundation for industrial domain ontologies	Jinzhi Lu (EPFL)
11:30 - 11:35	Accessibility	Tim Yates (Research & Development Programme Leader)	Q&A	
11:35 - 11:45	Lead Ontologist Inter-IKEA Systems (IKEA Global)	Katarina Nyberg Karl	Ontology engineering for supply chain, procurement, and logistics	Farhad Ameri (Texas State University)
11:45 - 11:50			Q&A	
11:50 - 12:35			Discussions	Chair: Dimitris Kiritsis (EPFL)
12:35 - 12:50	Session Summary		Nadja Adamovic, TU-WIEN, Project Coordinator	
12:50 - 12:55				
12:55 - 13:30	Discussions			
Plenary
